# SkinMedica®—Rejuvenate From Every Angle

Introducing SkinMedica®—a professional skin care product line backed by extensive scientific research and the results you can only expect from a trusted company, Allergan.

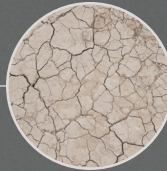

## Natural Aging

As we age, our skin produces less rejuvenating proteins called *growth factors* resulting in fine lines, wrinkles and rough skin texture. **TNS Essential Serum®** is formulated with naturally occurring growth factors and other proteins along with antioxidants, peptides, and other specialty ingredients to reduce the appearance of fine lines and wrinkles, and enhance skin tone, texture, and resiliency.

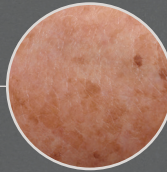

## Dehydration

Your skin's ability to retain water is impacted by your skin's natural hyaluronic acid (HA). Skin begins to lose HA as early as 20 years old. By age 50, the skin has lost half of its HA reserves. **HA<sup>5</sup>® Rejuvenating Hydrator** is a mix of 5 different forms of HA and potent antioxidants that immediately smooth the appearance of fine lines and wrinkles, and help support HA levels in the skin for long-term overall skin health.

## Skin Discoloration

Skin discoloration, or hyperpigmentation, is any uneven darkening of the skin caused by an excess production of melanin, a pigment that gives skin its color. **Lytera® 2.0 Pigment Correcting Serum** is a nonprescription serum that provides dramatic improvements in the appearance of skin discoloration across diverse skin tones and types.

## Photoaging

Exposure to the sun can ultimately deteriorate the collagen fibers in your skin. **Retinol Complex** is specially formulated with PhytoShield™ Complex to deliver retinol into the skin to enhance skin renewal, reduce the appearance of fine lines and coarse wrinkles, while minimizing irritation typically associated with topical retinol products.

## Sun Protection + Rejuvenation

The sun's light is comprised of rays that can damage the skin—ultraviolet (UVA and UVB) and infrared. **TOTAL DEFENSE + REPAIR Broad Spectrum Sunscreens** are revolutionary superscreens that protect against the sun's rays and support the skin's ability to restore itself with patented SOL-IR™ Advanced Antioxidant Complex.

**CAUTION:** Do not use Retinol Complex if you are pregnant, lactating, or planning to become pregnant. Mild redness, peeling, and irritation are expected when using these products. Use a sunscreen and limit sun exposure while using these products, and for a week following discontinuation.

**CAUTION:** GlyPro products used together may cause irritation.

**Sunburn alert:** AHA/BHA Exfoliating Cleanser, AHA/BHA Cream, and all GlyPro products contain an alpha-hydroxy acid (AHA) that may increase your skin's sensitivity to the sun and particularly the possibility of sunburn. Use a sunscreen, wear protective clothing, and limit sun exposure while using these products, and for a week following discontinuation.

**IMPORTANT! SUNSCREEN IS REQUIRED TO OPTIMIZE AND MAINTAIN THE RESULTS OF USING LYTERA® 2.0 PIGMENT CORRECTING SERUM.**

Most SkinMedica® products are intended to meet the FDA's definition of a cosmetic product, an article applied to the human body to cleanse, beautify, promote attractiveness, and alter appearances.
